Subject: Proposal for Monitoring of MARL/01/03

DSS: No

Philip Morris
MARL-01-03 R3 29..

Maria:

Attached please find the revised proposal from Clinimetrics for monitoring of the MARL/01/03 study. Based on our feedback, they have removed the site initiation visit. In addition, since they have familiarity with the site, they have removed time for a kick-off/training meeting.

I would like to move forward with processing this as soon as possible. Please review and let me know if you have any further comments or changes to the proposal, or if you are in agreement that it fully addresses our needs.

Keep in mind that we will only be billed for actual time incurred, therefore, the calculations are essentially upward estimates that allow us to arrive at an overall not to exceed amount.

If possible, could you let me know by Thursday (10/2) if it is okay to proceed with this?

Thanks,
Valerie
